Driving License: Full Irish

Summary:

I am an energetic and determined Sales Leader with 10+ years of experience exceeding targets individually and 4 years leading teams. After graduating from National University of Ireland Galway, I joined Imagine Communications as an LTE Sales Executive and was promoted to management following consistent top performance. I then moved to Code Institute, a high-growth startup (17–170 staff), where I was the top seller for 2 years before being promoted to UK Regional Leader managing 5–10 account managers. I later completed a coding bootcamp and now have an active software portfolio, agile experience, and a qualification in Full Stack Software Development. I then joined IBM, focusing on growing infrastructure business through partner ecosystems and new logo acquisition, primarily across Red Hat's SaaS, IaaS, and PaaS offerings via cloud and distribution. Within my first 18 months, I exceeded all targets and progressed into advisory and then EMEA Team Leader. I've consistently achieved 100%+ annually, earning multiple awards including Client & Partner Success, Growth, and largest deal recognition.

Work Experience:

Sep 2023 – Present: EMEA Red Hat Sales Team Leader

- Achieved 163%+ of 2023 target \$2m+ & 2024 Managed x3 territories closing over \$4m+ in net new revenue
